

EDUCATION

Nguyen Khanh An

VinUniversity

B.S. in Data Science, Minor in Economics

Hanoi, Vietnam

Sep 2024 – Present

- **Coursework:** Calculus, Linear Algebra, Statistics, Econometrics, Object-Oriented Programming, Data Structures, Microeconomics, Macroeconomics

RESEARCH EXPERIENCE

Swartz Center for Computational Neuroscience (SCCN), UC San Diego

Visiting Research Student

La Jolla, CA

Jun 2026 – Aug 2026 (Expected)

- Incoming research supervised by Prof. Tzzy-Ping Jung.

LSM's CoLab, VinUniversity/Lancaster University

Undergraduate Research Assistant

Hanoi, Vietnam

Feb 2026 – Present

- Extended evaluation below the original study's scope into highly non-IID settings (Dirichlet $\alpha = 0.1$), identifying defense success at 20%, severe instability at 40%, and training collapse at 60% malicious clients.
- Used Wasserstein distance and percentile-band overlap for score-distribution analysis, quantifying a $5\times$ drop in benign/malicious separability across the failure boundary.

TEACHING EXPERIENCE

College of Arts and Sciences, VinUniversity

Tutor – Statistics for Social Sciences (STAT1011)

Hanoi, Vietnam

Jan 2026 – Present

- Facilitated review sessions and recitations, helping STAT1011 students strengthen statistical concepts and coursework skills.

PROJECTS

VinUni Room Booking

Frontend Lead (Team of 4)

Hanoi, Vietnam

Apr 2026 – May 2026

- Built the frontend using Vaadin Flow and Spring Boot, with booking data persisted to MySQL through JDBC.
- Designed invite-only booking workflows, including attendee selection, SQL-based conflict checks, six validation rules, and admin approval logic.

Weather Dashboard — EcoBox

Facilitator

Hanoi, Vietnam

Dec 2025 – Jan 2026

- Engineered the physical enclosure in AutoCAD, calculating tolerances for the 7.5-inch E-Ink HAT and PCB before 3D printing in PLA.
- Helped implement a Python/headless-browser rendering pipeline to convert HTML/CSS dashboards into static E-Ink display bitmaps.

PROFESSIONAL EXPERIENCE

VinUniversity Library

Technical Media Developer

Hanoi, Vietnam

Sep 2024 – Jan 2026

- Developed and optimized 3D assets for AR/VR applications, including topology, UV mapping, texturing, and real-time performance constraints.

HONORS & AWARDS

- **Dean's List:** Spring 2025

SKILLS

Programming: Python, R, Java, SQL

Tools: Git, Linux, MySQL, L^AT_EX
